Senior Technical Consultant

Hugo Penacho

Summary

Technical consultant with 4+ years of experience partnering with enterprise and government customers on AI-powered recruitment and technical hiring workflows. Strong background in customer-facing technical advisory, solution design, API integrations, automation, and troubleshooting across complex client environments. Comfortable leading technical conversations with engineering and talent stakeholders, and using data from platform usage and deployments to drive adoption, reduce errors, and improve hiring outcomes.

Impact Highlights

Jun 2022 - Jan 2026 **Bullhorn / Textkernel**

- Reduced delivery time for key Textkernel products by up to 30% through Jenkins automation and process streamlining.
- Reduced user-made provisioning errors by up to 70% by implementing validation tools and enforcing naming conventions.
- Delivered over 300 customer product rollouts and functionality changes across enterprise and government clients.
- Resolved over 500 JIRA issues spanning customer requests, operational improvements, and internal enhancements.

Core Skills

- Technical consulting and delivery: solution design, customer discovery, stakeholder communication, requirements gathering, troubleshooting, onboarding, end-to-end project ownership.
- Python and data: Python, pandas, NumPy, automation scripting, CSV/Excel transformation, data wrangling, validation scripts, structured file generation for normalization pipelines.
- AI / search / relevance: match query tuning, search relevance configuration, data quality feedback loops, API-based validation, prompt engineering foundations, agentic AI learning in progress.
- Platforms and tools: Jenkins, XML configuration, Git/GitLab, REST APIs, SOAP APIs, Docker, Elasticsearch, AWS, Kibana, Grafana, Salesforce, JIRA, SoapUI.
- Assessment and hiring workflows: advising on configuration, matching and relevance tuning, and process changes to support more rigorous, scalable technical hiring.

Work Experience

Senior Technical Consultant Jun 2022 - Jan 2026

Bullhorn / Textkernel - Machine Intelligence for People and Jobs | Amsterdam, Netherlands

- Acted as a primary technical point of contact for 100+ enterprise and government customers, supporting AI-powered recruitment solution delivery from discovery to rollout.
- Led technical discovery and solution design by analysing customer systems, identifying optimal service connections, and translating client needs into implementation plans.
- Created parameterized Jenkins jobs for automated, customer-tailored deployments and Python utility scripts for provisioning and data-manipulation tasks.
- Delivered technical enablement sessions and walkthroughs to customer implementation teams, demonstrating configuration options, APIs, and best practices for integrating Textkernel into their hiring workflows.

- Configured custom Match Query Templates to tune ranking and relevance for client-specific needs, then demonstrated the results through SOAP API calls in real time.
- SME for Textkernel ↔ SAP SuccessFactors integrations; owned and optimized provisioning workflows to support timely, high-quality customer deliveries.
- Hands-on experience with REST and SOAP APIs for integrating Textkernel products with ATS and HR systems.
- Troubleshot configuration, product, and delivery issues across customer and internal environments, working closely with product and cross-functional teams to improve outcomes.

Web Developer Feb 2021 - May 2022
Siemens | Portugal

- Developed internal web applications using React, Node.js, Express, TypeScript, and Jest.
- Worked directly with clients and stakeholders to gather feedback and refine solutions.
- Performed maintenance and feature work in a production environment, strengthening delivery discipline and collaboration.
- Continuously developed strong problem-solving abilities and collaborated effectively with team members to ensure timely delivery of high-quality work.

Web Developer (Internship) Nov 2020 - Jan 2021
Siemens | Portugal

- Completed a 400-hour internship that led to full-time hiring.
- Worked with Angular, .NET Core, and Microsoft SQL Server.

Education

University of Helsinki Nov 2020 - Nov 2021
FullStackOpen 2021 MOOC Computer Programming

ATEC - Training Academy Sep 2019 - Jan 2021
IT Technologies and Programming Specialist Course

Languages

- English (Fluent) • Portuguese (Fluent) • Spanish (Basic)

Certificates

Full Stack Open 2021

University of Helsinki

EF SET English Certificate 91/100 (C2 Proficient)
